Compton Creek Mosquito Abatement District

From: John Franklin, General Manager

Date: August 17, 2026

Re: General Manager's Report for August 2026

WEATHER

Temperatures at Noon: High – 91 Low – 79 Ave. – 83

Days Clear – 20 Overcast – 0

Service Requests – 1 Rain – 0

OPERATIONAL REPORT

The District continued its spring surveillance program which included inspections for mosquito breeding throughout the months of July & August. District personnel continue to routinely inspect public areas, such as street gutters, catch basins, box drains, swimming pools, etc., for any evidence of mosquito breeding. The area(s) in which breeding was found were treated appropriately. The District inspected Compton Creek for breeding in the month of August. No breeding was found in Compton Creek.

MANAGER'S REPORT

Public Education

The District has continued its public awareness campaign to promote public safety through effective mosquito control and shared public responsibility. Social media platforms are being updated daily with information, stories, and best practices for protecting yourself from mosquitoes. District personnel are also in the neighborhoods daily, distributing mosquito awareness literature and promoting the District's message directly to residents.

Southern California News Group

Madeline Armstrong of the Southern California New Group has reached out to multiple Southern California vector control districts regarding a story that she is currently working on. The story is focused on WNV within the region vector control districts serve and how it compares to recent years. Ms. Armstrong's meeting with the CCMAD General Manager is scheduled for August 19, 2026.
